EDUCATION

Bachelor Degree of Computer Science and information Systems

Faculty of Computers and Informatics
- Suez Canal University

SKILLS

Mobile & Web

- **Android, iOS, Flutter** and **React Native**
- **Wordpress** and **React JS**

Languages

Swift, Kotlin, Dart, Python,
Javascript, TypeScript, PHP, Java,
HTML 5, CSS, NoSQL, SQL, XML

Tools & Methodologies

- **Git**, Clean Code, Clean Architecture,
SOLID Principles, OOP, MVVM,
MVC, Bloc, RiverPod, Provider, GetX,
Debugging, Firebase, SDKs, Unit
Testing, **AI tools, GraghQL**
- **Jira, Azure, AWS, GCP, CI/CD,**
Kubernetes, Kafka and Docker

PROJECTS

Skyloov Property Portal

360 Real Estate Platform

2024 – 2024

- Mobile-first real estate platform delivering immersive 360 views of communities, buildings, and properties.

EXPERIENCE

Skyloov Property Portal (UAE)

Senior Mobile Application Developer

07/2023 – Present | Dubai United Arab Emirates

- Led a mobile development team to design and deliver the Skyloov Property Portal app, a large-scale real estate platform for property discovery and listing.
- Developed **real-time chat** and **live tracking** features to provide instant user updates and improve engagement.
- **Deployed "Sylvia"**, an **AI-powered assistant** leveraging advanced **NLP** and **API integrations** to deliver intelligent, real-time conversational experiences.
- Integrated **360-degree** property viewing using third-party 360 camera SDKs, enabling immersive property visualization.
- Implemented **marketing** and **analytics SDKs**, including **AppsFlyer** and **Cloudflare Zaraz**, for attribution, event tracking, and performance monitoring.
- Built real-time tracking and event pipelines to support live updates and user interactions.
- Applied **Agile methodologies**, **managing sprints**, **code reviews**, and **cross-team collaboration** to ensure on-time delivery and high code quality.
- Ensured **scalable architecture** and **performance optimization** across iOS and Android platforms using Flutter.

Ryalto (UK)

Mobile Application Developer

07/2021 – 06/2023 | London United Kingdom

- Developed and maintained cross-platform mobile applications using Flutter for iOS and Android.
- Implemented **real-time communication** features including instant messaging, **VOIP**, **video calling**, and shared calendars using **WebRTC**.
- Integrated Firebase for **real-time database**, notifications, and backend services.
- Built user engagement features such as posts, comments, and activity feeds.
- Designed and implemented a push notification system for real-time alerts and scheduling updates.
- Collaborated in an **Agile/Scrum** environment, working with product managers and cross-functional teams to deliver features on time.
- Improved communication efficiency and collaboration across healthcare teams.

- Built interactive **360 browsing** and optimized search and UI/UX, increasing user satisfaction by 25%.
- **Integrated AI-powered assistant (Sylvia)** for conversational property search using natural language.
- Implemented **marketing and analytics SDKs (AppsFlyer, Smartlook)** to enable data-driven optimization.
- Designed for **scalability, performance, and real-time interaction** in a **high-traffic marketplace**.

Ryalto

2022 – 2022

- Mobile application for **secure communication, information sharing, and shift booking** for **healthcare professionals**.
- Enabled **real-time messaging, group chats, and in-app voice calls** to improve team collaboration.
- Centralized organizational updates and wellbeing content in a single platform.
- Implemented shift discovery and booking with a high-performance, secure, and scalable architecture.

Audiohat - أوديوهات

2020 – 2020

- Mobile application delivering radio-drama style audiobooks with high-quality, immersive audio.
- Enabled **50K+** users to **download content** for **offline listening**.
- Implemented **playback speed control**, improving listener **comprehension** by 25%.
- Added resume playback and personal library features for seamless user experience.
- Optimized for **performance** and **audio quality**.

Green Code (KSA)

Mobile Application Developer

01/2019 – 06/2021 | Damam Saudi Arabia

- Developed and delivered native and cross-platform mobile applications using Flutter for iOS and Android across tourism and education sectors in Saudi Arabia.
- Implemented core app functionalities including **real-time chat, e-commerce payments, marketing integrations, educational content delivery, and user authentication (SMS and phone verification)**.
- Integrated **third-party APIs and SDKs**, including Firebase, **payment gateways**, and **analytics/tracking** solutions.
- Applied scalable architecture and design patterns to build maintainable codebases, improving performance and reducing defects.
- Collaborated in an **Agile/Scrum** environment, using Jira for sprint planning, task tracking, and delivery.
- Ensured high performance, stability, and consistent UX across platforms.

Free Lancer

Mobile Application Developer

03/2018 – 03/2019 | Location

- Designed and delivered custom cross-platform mobile applications using Flutter for iOS and Android.
- Contributed across the full mobile development lifecycle, from requirements and UI/UX to deployment.
- Improved application performance and responsiveness, enhancing user experience.
- Accelerated time-to-market through efficient development and release workflows.
